

A great way to find out what works for you

Iman and baby Aneesa

I was lucky enough to find out about Real Nappies before I had my children and I couldn't wait to get my babies into all those bright designs! However, life with a newborn was chaotic, so the idea was shelved until my first daughter was four months old. I had fun experimenting with different nappies through a trial kit and I'm thrilled to be using our nappies again with my second daughter. This time around, I haven't had to spend money on disposables so the saving aspect is really adding up.

I've always been passionate about the environment, so not putting disposables into the rubbish bin is a strong motivation for me to use Real Nappies; but I also love the fact that I'm putting natural fibres against my kids' skin rather than potentially harmful chemicals. We're using Milovia and Flip wraps with cotton prefolds/muslins during the day, with thicker shaped bamboo nappies for nights.

Modern cloth nappies are so versatile: there's so much technology and innovation out there that there's bound to be a system to suit every family. Free trial packs are a great opportunity to find out what works for you without having to make a huge investment upfront.
